For unique moments – ambient LED and LED light ring

Do you dream of MORE atmosphere in your pool?

Then we have just the thing for you! How about our elegant ambient LED for the installation shaft, for example? Or the stylish LED light ring for the turbine? No matter which you choose: Both systems bathe the pool in a colourful light and create a wonderfully relaxed atmosphere. They are conveniently controlled by remote control as well as via the **BINDER24 app**, which offers extended functions.

Vibrant colours: Our LED light ring

The LED light ring at the outflow opening creates a pleasant atmosphere and facilitates orientation while swimming. Its unique appearance has even won it awards: Our LED light ring was awarded the 2022 German Design Award in the category „Excellent Product Design Lighting“

- RGB colour mode with colour change
- Colour shades > 6,000 RGB mixed colours
- Luminous flux mixed colour max. 365 lm, 10.5 W
- Controllable via remote control and BINDER24 app
- Voltage 24 V DC
- Dimmable
- Protection class IP68
- Incl. 10 m cable, can be extended to max. 30 m
With a 4-core cable (min. 1 mm² or larger)

Simply magical: Ambient LED for the installation shaft

The atmospheric LED light makes the turbine shaft glow in colour from the inside. And so intensively that, depending on the size of the pool and the design, you could do without additional lighting and thus save costs.

- RGB colour mode with colour change
- Colour shades > 6,000 RGB mixed colours
- Short LED 850 lm, 22 W, long LED 1700 lm, 43 W*
- Controllable via remote control and BINDER24 app
- Voltage 24 V DC
- Dimmable
- Protection class IP 68
- Incl. 30 m cable (cannot be extended)

*depending on the size of the installation shaft
